

Glycol Ready Tower Box Detail

Glycol ready towers on pages 64-67 feature aluminum cooling blocks, 3/8" copper glycol recirculating down tubes, standard US faucets, 5' of 3/16" tubing, and 1/4" bore shanks. Knobs not included.

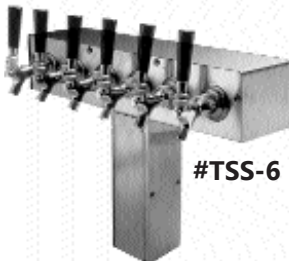

Economy Stainless Top "T" Towers and Pass-Thru Towers

All towers have a stainless top held by S/S screws in front and back, either 3" round stainless steel columns or 4 1/8" square stainless steel columns. They include faucets and 5' x 3/16" ID beer hose, assembled with one piece 1/4" bore nipple shanks. (No soldered elbows or o-ring seats to leak or loosen.) Can be ordered either air cooled or glycol ready with aluminum chill blocks. All towers less knobs. Available with stainless steel faucets and shanks upon request. NSF certified.

Height 15" Faucet Clearance 10 1/2"
Boxes are 4-3/4" D x 4-1/8" H
